

TERRY RO SERIES

Terry H2O RO 250

Compact 6-stage RO with mineral blending — up to 946 L/day

A compact, high-performance reverse-osmosis system for applications where water quality is essential but demand is moderate — small cafés, mobile coffee carts and light-commercial sites. Delivers up to 946 L/day of purified, mineral-balanced water.

946 L/day

TDS
MONITOR + BLENDING

Terry H2O RO 250

FEATURES

- 6-stage filtration — twice the stages of many compact RO systems
- Precision mineral blending valve
- Integrated TDS monitor (before & after blending)
- High-efficiency permeate pump reduces waste
- Quick-Twist tool-free cartridges
- Stainless enclosure with removable panels

CERTIFICATION

- Line-pressure or booster-pump operation

TERRY RO SERIES
